

The image displays two vertically stacked instances of the Microsoft Visual Studio Code (VS Code) code editor.

Top Window:

- Explorer View:** Shows a file tree under the 'OS' workspace. The 'class_activity1' folder contains 'copyfilesyscall.c', 'result.txt', and 'jan 13.md'. 'result.txt' is currently selected.
- Terminal:** Shows the command `cat result.txt` being run, resulting in the output "1 hello".
- Bottom Window:** Shows the same file tree and terminal output as the top window.
- Terminal:** Shows the command `cat copyresult.txt` being run, resulting in the output "1 hello".
- Terminal History:** Displays the following command history:

```
ls
copyfilesyscall.c  result.txt
→ gcc copyfilesyscall.c -o copy
→ ./copy
→ cat copyresult.txt
hello
→ class_activity1
```
